POLICY

The Director of Education will offer, within budgetary constraints, programs, and services, which support and enhance the education of students.

Accordingly:

1. The Director of Education will endeavor to hire competent, committed staff.

2. The Director of Education will take appropriate action with staff who lack competence and commitment or who contravene Board policy.

3. The Director of Education will ensure programs and services support provincial requirements.

4. The Director of Education will develop and encourage activities that are consistent with sound teaching and generally accepted effective practices to enhance student learning.

5. The Director of Education will approve assessment and evaluation practices that lead to growth and improvement in both students and staff.
